## Azad Jammu \& Kashmir (Rural)

## Sample Composition

- The ASER 2012 survey was conducted in all 10 districts of AJK. This covered 5,885 households in 297 villages in the province.
- Detailed information was collected on 15,261 children ( $55 \%$ male, $45 \%$ female) aged 3-16 years. Out of these, children aged 5-16 were also tested for language and arithmetic competencies.
- School information on both public and private schools was collected. A total of 551 schools were surveyed, out of which 295 were government ( $44 \%$ primary, $25 \%$ elementary, $30 \%$ high, $1 \%$ others ${ }^{1}$ ) and 256 were private schools ( $45 \%$ primary, $36 \%$ elementary, $18 \%$ high, $1 \%$ others).
- Forty-four percent of the government schools were boys only, $23 \%$ were girls only, and $33 \%$ were coeducation schools. Three percent of the private schools were boys only, $1 \%$ was girls only, and $96 \%$ were coeducation schools.

A small proportion of children are out of school: seven percent of all school-aged children in AJK are out of school.

- Of all children aged 6-16 years, 93\% were reported being enrolled in schools.
- Seven percent of the school-aged children have either dropped out of school (3\%) or have never been enrolled in a school (4\%). ASER 2012 showed a slightly lesser percentage of children to be out-of-school than 2011 in AJK.
- Equal percentage of girls and boys were found to be out-of-school.
- For every thirteen children in Class 1, there are six children in Class 10.

${ }^{1}$ Other type of schools include classes 6-8, 1-12, 3-8, 6-10, 4-12, 5-10.
* In 2011, 4 districts of Azad Jammu \& Kashmir were surveyed.

## Azad Jammu \& Kashmir (Rural)

Private schools absorb a large share of school-aged children: thirty-six percent of all school-going children are enrolled in non-state schools in AJK.

- Forty-two percent of the children enrolled in private schools are girls and $58 \%$ are boys.
- Less than $1 \%$ of the total school-attending population attends madrasah schools and other non-formal institutes.

## More than half of the pre-primary age children are not attending any form of schooling.

- A total of 3,153 children aged from three to five were reached during the ASER 2012 survey in AJK.
- Consistent with last year's results, $53 \%$ of children aged $3-5$ did not attend any form of pre-primary education.
- Of the children who do attend pre-primary education, $51 \%$ are enrolled in public institutions and $49 \%$ in private institutions.

| \% Children who attend different types of pre-schools |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Age group | Govt. | Non-state providers | Out-of-school | Total |  |  |
| 3 | 4.6 | 6.1 | 0.2 | 0.0 | 89.1 | 100 |
| 4 | 20.5 | 24.6 | 0.4 | 0.1 | 54.4 | 100 |
| 5 | 44.8 | 37.5 | 0.2 | 0.2 | 17.4 | 100 |
| $\mathbf{3 - 5}$ | $\mathbf{2 3 . 8}$ | $\mathbf{2 3 . 0}$ | $\mathbf{0 . 3}$ | $\mathbf{0 . 1}$ | $\mathbf{5 2 . 8}$ | $\mathbf{1 0 0}$ |
| Total |  |  | $\mathbf{4 7 . 2}$ |  | $\mathbf{5 2 . 8}$ | $\mathbf{1 0 0}$ |

## Azad Jammu \& Kashmir (Rural)

Learning levels of children are assessed through specific language and arithmetic tools. ${ }^{2}$. The same approach is used for all children between the ages of 5 to 16. The literacy assessments are designed to cover up to Class 2 level according to the national curriculum. The arithmetic tool covers up to Class 3 level.

## Learning levels remain consistently poor: thirty-five percent children from Class 5 cannot read Class 2 Urdu story.

- Analysis of reading ability shows that $52 \%$ of Class 3 students were able to read sentence and nearly $48 \%$ could not.
- In ASER $2011^{3}, 58 \%$ of Class 5 students were reported as being able to read a story compared to $65 \%$ of Class 5 students who could in 2012.

| Class-wise \% children who can read |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Class | Nothing | Letters | Words | Sentences | Story | Total |
| 1 | 13.5 | 39.3 | 37.3 | 6.1 | 3.9 | 100 |
| 2 | 5.5 | 23.6 | 45.3 | 16.1 | 9.4 | 100 |
| 3 | 2.9 | 10.8 | 34.1 | 26.5 | 25.6 | 100 |
| 4 | 1.4 | 4.8 | 21.6 | 26.8 | 45.4 | 100 |
| 5 | 1.3 | 1.4 | 10.7 | 21.7 | 64.9 | 100 |
| 6 | 0.9 | 0.8 | 5.4 | 19.2 | 73.7 | 100 |

| 8 | 0.0 | 0.0 | 0.5 | 7.0 | 92.5 | 100 |
| 9 | 0.0 | 0.0 | 0.6 | 3.8 | 95.6 | 100 |
| 10 | 0.0 | 0.0 | 0.0 | 1.7 | 98.3 | 100 |
| How to read: 10\% (6.1+3.9)children of Class 1 can read sentence |  |  |  |  |  |  |
|  |  |  |  |  |  |  |

## Deterioration can be seen in English competencies over the past year.

- In ASER 2012, 58\% of Class 5 students were reported as being able to read Class 2 English sentences compared to $60 \%$ of Class 5 students who could do so in 2011.
- Sixty-nine percent of Class 6 children and $82 \%$ of Class 7 children were able to accomplish Class 2 English sentence tasks.

| Class-wise \% children who can read |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Class | Nothing | Letters |  | Words | Sentences | Total |
| 1 | 16.4 | 28.2 | 36.8 | 15.4 | 3.2 | 100 |

[^0]
## Azad Jammu \& Kashmir (Rural)

The same proportion of children in Class 5 can solve Class 3 level arithmetic problems in 2012 as compared to 2011.

- Forty-four percent of Class 5 students were able to do 3-digit division sums in 2011 and 2012.
- Twenty-nine percent of Class 7 children could not do these same Class 3 problems.

| Class-wise \% children who can do |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Class | Nothing | Number recognition | Subtraction | Division <br> (2 Digits) | (3 digits) | Total |
| 1 | 17.2 | 36.1 | 39.7 | 5.0 | 2.1 | 100 |
| 2 | 6.4 | 19.6 | 54.1 | 14.2 | 5.7 | 100 |
| 3 | 3.8 | 8.3 | 43.7 | 27.9 | 16.3 | 100 |
| 4 | 1.4 | 4.5 | 26.6 | 39.3 | 28.3 | 100 |

| 9 | 0.0 | 0.0 | 1.1 | 8.2 | 90.7 | 100 |
| 10 | 0.0 | 0.0 | 1.1 | 4.4 | 94.5 | 100 |
| How to read: $7.1 \%$ | $(5.0+2.1)$ | children of Class 1 can do subtraction |  |  |  |  |

## Students in private schools outperform students in government schools.

- Sixty-four percent of Class 5 students in government schools were able to read a story in Urdu (the highest level of competency tested) compared to $67 \%$ of Class 5 students in private schools.
- In English, 56\% of Class 5 students in government schools were able read at least sentences compared to $63 \%$ of Class 5 students in private schools.
- This pattern of better performance among private school students is also reflected in arithmetic. Fortynine percent of Class 5 private school children were able to do division problems of Class 3 (the highest competency tested) as against $42 \%$ of Class 5 government school children.

## Azad Jammu \& Kashmir (Rural)

Gender gaps in learning outcomes: minor differences between boys and girls in English reading and numeracy skills.

- Sixty-two percent of boys and $60 \%$ of girls were able to read at least Urdu sentences. This difference was found to be statistically insignificant at $95 \%$ confidence level.
- Sixty-seven percent of boys and $65 \%$ of girls were able to correctly read English language words and sentences.
- Similarly, $59 \%$ of boys and $57 \%$ of girls were able to do subtraction or division problems.

## A modest proportion of 'out-of-school' children are at more than 'beginner' competency levels.

- Data on reading ability of out-of-school children shows that $9 \%$ of out-of-school children could read a story in Urdu while 69\% of these children were at the beginner level.
- English reading and comprehension competencies were also found in out-of-school children. While $69 \%$ of children were at beginners' level, $16 \%$ were able to read words and sentences.
- In arithmetic almost $8 \%$ out-of-school children shows were able to do division sums while $67 \%$ were at the beginner level.

Forty-eight percent of the mothers in the sampled households had completed atleast primary schooling.

- Out of the total mothers in the sampled households, $52 \%$ mothers had not completed primary schooling.
- The data shows that $64 \%$ fathers in the sampled households had completed at least primary schooling.

## Azad Jammu \& Kashmir (Rural)

Private tuition incidence and uptake is more prevalent among private than government school students.

- Around $20 \%$ of all private school-going children take paid tuition while $9 \%$ of all government school children do so.
- Children across all private school classes undertake private tuition. In Class 1,23\% of private school children take paid tuition and in Class 10 of private schools this percentage has risen to $29 \%$.
- In government schools, the incidence of tuition-taking remains somewhat consistent with class-level. Eight percent of children in Class 10 take paid tuition as compared to $9 \%$ in Class 1.

Fifteen different languages are used in the households in AJK.

- ASER 2012 survey findings revealed that 15 different languages were used in the surveyed households in AJK.
- Four languages used commonly were; Hindko (34\%), Pahari (21\%), Urdu (15\%) and Punjabi (15\%)
- Fifteen percent of the remaining households used other languages ${ }^{4}$.

The most preferred language for medium of instruction was Urdu.

- Each household surveyed was also asked their preferred medium of instruction for their children in schools.
- Seventy percent of the households surveyed preferred Urdu as the medium of instruction in schools.
- Home language was preferred by $17 \%$ out of all households and $13 \%$ preferred English.

[^1]The official medium of instruction of the schools attended by surveyed children was English or Urdu.

- Each child was also asked the medium of instruction in their respective schools.
- Sixty-eight percent of the children in private schools reported English as their medium of instruction, and 32\% had Urdu.
- Three percent of the children in public schools reported having English as their medium of instruction, while 97\% schools had Urdu.
- The medium of instruction for each school visited was also asked during the survey.
- Four percent of the government schools surveyed in AJK were English medium and 96\% were Urdu medium.

- Eighty-three percent of the private surveyed schools in AJK were English medium, 12\% were Urdu medium, less than $1 \%$ was Hafiz-e-Quran schools, and about $4 \%$ were other mediums.

## Twelve percent children in government schools were absent.

Student attendance is recorded by taking a head count of all students present in schools on the day of visit.

- Overall student attendance in government schools stood at 88\%.
- The overall attendance in private schools is $88 \%$ as per the headcount.

| Attendance (\%) on the day of visit |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Government schools |  |  |  |  | Private schools |  |  |  |  |
|  | Primary | Elementary | High | Others | Overall | Primary | Elementary | High | Others | Overall |
| Children attendance | 86.6 | 89.0 | 87.5 | 98.9 | 87.7 | 88.2 | 86.2 | 89.4 | 79.9 | 87.7 |
| Teacher attendance | 86.9 | 84.9 | 89.0 | 92.2 | 87.6 | 84.0 | 89.8 | 85.3 | 88.2 | 86.7 |

Twelve percent teachers in government schools and 13\% teachers in private schools were absent.
Teacher attendance is recorded by referring to the appointed positions in each school and the total number of teachers actually present on the day of survey.

- Overall teacher attendance in government schools was $88 \%$ and $87 \%$ in private schools.

Forty percent of government schools surveyed had Class 2 students sitting together with other classes.

- The surveyors were asked to observe if Class 2 and Class 8 were sitting together with any other classes. This is referred to as multi-grade teaching, where one teacher has to teach more than one grade within the allotted time.
- It was found that $40 \%$ of the surveyed government schools and $28 \%$ of the surveyed private schools had Class 2 sitting with other classes.
- Similarly $15 \%$ of surveyed government schools and $19 \%$ of surveyed private schools had Class 8 sitting with other classes.

## Azad Jammu \& Kashmir (Rural)

More qualified teachers in government schools.

- Twenty-four percent of the teachers in government schools had post-graduate degrees, while private schools had 17\% teachers who did.
- Eleven percent of the teachers had Masters in Education in government schools, while 7\% of the teachers in private schools had the same degree.

| Teacher qualification - general (\% of teachers) |  |  |
| :--- | :---: | :---: |
|  | Government schools | Private schools |
| Matriculation | 12.8 | 9.3 |
| FA | 21.3 | 31.2 |
| BA | 40.8 | 41.5 |
| MA or above | 24.3 | 17.4 |
| Others | 0.9 | 0.6 |

| Teacher qualification - professional (\% of teachers) |  |  |
| :--- | :---: | :---: |
|  | Government schools | Private schools |
| PTC | 20.4 | 21.9 |
| CT | 20.0 | 30.6 |
| B-Ed | 45.9 | 38.5 |
| M-Ed or above | 10.7 | 6.9 |
| Others | 3.1 | 2.1 |

Larger proportions of surveyed private schools had library books in their premises as compared to government schools.

- Twenty-four percent of the surveyed government high schools had library books available for students to use in the school premises, while $54 \%$ of the private schools had the same facility.
- Forty-two percent of government high schools had computer labs as opposed to $40 \%$ private high schools.

| School facilities (\% schools) |  |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
