## Sample Composition

- The ASER 2012 survey was conducted in all 7 districts of Gilgit-Baltistan (GB). This covered 4,118 households in 207 villages in the province.
- Detailed information was collected on 13,051 children ( $56 \%$ male, $44 \%$ female) aged 3-16 years. Out of these, children aged 5-16 were also tested for language and arithmetic competencies.
- School information on both public and private schools was collected. A total of 344 schools were surveyed, out of which 201 were government ( $33 \%$ primary, $30 \%$ elementary, $26 \%$ high, $11 \%$ others) and 143 were private schools (39\% primary, 36\% elementary, 23\% high, 2\% others).
- Forty-two percent of the government schools were boys only, $15 \%$ were girls only, and $43 \%$ were coeducation schools. Ten percent of the private schools were boys only, $5 \%$ were girls only, and $85 \%$ were coeducation schools.

## A large number of children continue to be out of school: seventeen percent of all school-aged children in GB are out of school.

- Of all children aged 6-16 years, $83 \%$ were reported being enrolled in schools.
- Seventeen percent of all school-aged children have either dropped out of school (3\%) or have never been enrolled in a school (14\%).
- More girls than boys were out-of-school, unlike in 2011, where equal percentage of boys and girls were found out-of-school.
- For every fifteen children in Class 1, there are only four children in Class 10.

| \% Children in different types of schools |  |  |  |  | \% Out-of-school |  | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Age group | Govt. | Non-state providers |  |  | Never enrolled | Dropout |  |
|  |  | Pvt. | Madrasah | Others |  |  |  |
| 6-10 | 43.6 | 35.2 | 2.4 | 2.3 | 15.3 | 1.2 | 100 |
| 11-13 | 45.5 | 37.3 | 1.9 | 1.6 | 10.9 | 2.8 | 100 |
| 14-16 | 46.8 | 30.5 | 1.4 | 1.4 | 13.1 | 6.8 | 100 |
| 6-16 | 44.8 | 34.6 | 2.0 | 1.9 | 13.7 | 2.9 | 100 |
| Total | 83.3 |  |  |  | 16.6 |  | 100 |
| By type | 53.8 | 41.5 | 2.4 | 2.3 |  |  |  |

${ }^{1}$ Other type of schools include classes 6-8, 1-12, 3-8, 6-10, 4-12, 5-10.

* In 2011, 3 districts of Gilgit-Baltistan were surveyed.

## Gilgit-Baltistan (Rural)

Private schools absorb a large share of school-aged children: forty-six percent of all school-going children are enrolled in non-state schools in GB.

- Forty-two percent of the children enrolled in private schools are girls and $58 \%$ are boys.
- Approximately $2 \%$ of the total school-attending population attends madrasah schools and 2\% attends non-formal institutes.

## More than half of the pre-primary age children are not attending any form of schooling.

- A total of 2,680 children aged from three to five were reached during the ASER 2012 survey in GB.
- Consistent with last year's results, $56 \%$ of children aged $3-5$ did not attend any form of pre-primary education.
- Of the children who do attend pre-primary education, $51 \%$ are enrolled in public institutions and $49 \%$ are enrolled in the private sector.

| $\%$ Children who attend different types of pre-schools |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Age <br> group | Govt. | Non-state providers |  | Out-of-school | Total |  |
| 3 | 6.9 | 9.2 | 1.1 | 0.6 | 82.2 | 100 |
| 4 | 21.3 | 19.2 | 1.2 | 1.1 | 57.2 | 100 |

## Gilgit-Baltistan (Rural)

Learning levels of children are assessed through specific language and arithmetic tools ${ }^{2}$. The same approach is used for all children between the ages of 5 to 16. The literacy assessments are designed to cover up to Class 2 level according to the national curriculum. The arithmetic tool covers up to Class 3 level.

## Learning levels remain consistently poor: forty-four percent children from Class 5 cannot read Class 2 Urdu story.

- Analysis of reading ability shows that $55 \%$ of Class 3 students were able to read sentence and nearly $45 \%$ could not.
- In ASER $2011^{3}, 61 \%$ of Class 5 students were reported as being able to read a story compared to $56 \%$ of Class 5 students who could in 2012.

| Class-wise \% children who can read |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Class | Nothing | Letters | Words | Sentences | Story | Total |
| 1 | 13.3 | 44.6 | 26.1 | 6.8 | 9.2 | 100 |
| 2 | 7.0 | 23.1 | 39.8 | 17.0 | 13.1 | 100 |
| 3 | 3.9 | 11.7 | 29.1 | 29.0 | 26.3 | 100 |

[^0]
## Gilgit-Baltistan (Rural)

## A larger proportion of children in Class 5 can solve Class 3 level arithmetic problems in 2012 as compared to 2011.

- Fifty-six percent of Class 5 students were able to do 3-digit division sums compared to $50 \%$ in 2011.
- Twenty-six percent of Class 7 children could not do these same Class 3 problems.

| Class-wise \% children who can do |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Class | Nothing | Number recognition | Subtraction <br> (2 Digits) | Division <br> (3 digits) | Total |  |
| 1 | 14.7 | 31.6 | 35.2 | 8.4 | 10.1 | 100 |
| 2 | 7.2 | 16.5 | 42.8 | 19.4 | 14.1 | 100 |
| 3 | 3.7 | 8.1 | 29.0 | 30.4 | 28.8 | 100 |
| 4 | 2.9 | 3.5 | 18.8 | 27.6 | 47.3 | 100 |
| 5 | 3.2 | 2.5 | 12.1 | 26.7 | 55.5 | 100 |

| 8 | 0.0 | 0.0 | 1.7 | 9.3 | 89.0 | 100 |
| 9 | 0.0 | 0.0 | 0.9 | 4.9 | 94.2 | 100 |
| 10 | 0.0 | 0.0 | 0.4 | 7.0 | 92.5 | 100 |
| How to read: 18.5\% (8.4+10.1) children of Class 1 can do subtraction |  |  |  |  |  |  |

## Students in private schools outperform students in government schools.

- Fifty percent of Class 5 students in government schools were able to read a story in Urdu (the highest level of competency tested) compared to $65 \%$ of Class 5 students in private schools.
- In English, 63\% of Class 5 students in government schools were able read sentences compared to $77 \%$ of Class 5 students in private schools.
- This pattern of better performance among private school students is also reflected in arithmetic. Sixtythree percent of Class 5 private school children were able to do division problems of Class 3 (the highest competency tested) as against $51 \%$ of Class 5 government school children.

## Gilgit-Baltistan (Rural)

Minimal gender gaps in learning outcomes: insignificant differences between boys and girls in literacy and numeracy skills.

- Fifty-three percent of boys and $52 \%$ of girls were able to read at least Urdu sentences.
- Sixty-two percent of boys and $61 \%$ of girls were able to correctly read English language words and sentences.
- Similarly, $54 \%$ of boys and $52 \%$ of girls were able to do subtraction or division problems.

## A modest proportion of 'out-of-school' children are at more than 'beginner' competency levels.

- Data on reading ability of out-of-school children shows that 5\% of out-of-school children could read a story in Urdu while 83\% of these children were at the beginner level.
- English reading and comprehension competencies were also found in out-of-school children. While $86 \%$ of children were at beginners' level, $9 \%$ were able to read words and sentences.
- In arithmetic almost $6 \%$ out-of-school children shows were able to do division sums while $84 \%$ were at the beginner level.

Twenty-two percent of mothers in the sampled households had completed atleast primary schooling.

- Out of the total mothers in the sampled households, $78 \%$ of mothers had not completed primary schooling.
- The data shows that $48 \%$ fathers in the sampled households had completed primary schooling.

## Gilgit-Baltistan (Rural)

## Private tuition incidence and uptake is more prevalent among private than government school students.

- Around $25 \%$ of all private school-going children take paid tuition while $5 \%$ of all government school children do so.
- Children across all private school classes undertake private tuition. In Class 1, 26\% of private school children take paid tuition and in Class 10 of private schools this percentage is $18 \%$.
- In government schools, the incidence of tuition-taking increases with class-level. Eight percent of children in Class 10 take paid tuition as compared to $4 \%$ in Class 1.

| Class-wise \% children attending paid tuition |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Type | I | II | III | IV | V | VI | VII | VIII | IX | X |
| Govt. | 3.7 | 6.0 | 4.7 | 6.6 | 6.3 | 2.9 | 5.4 | 7.0 | 9.4 | 7.9 |
| Pvt. | 25.8 | 29.1 | 25.1 | 28.3 | 26.3 | 18.7 | 23.8 | 24.5 | 22.6 | 17.8 |

Eighteen different languages are used in the households in GB.

- ASER 2012 survey findings revealed that 18 different languages were used in the surveyed households in GB.
- Three languages used commonly were; Shina (47\%), Balti (23\%) and Burushaski (13\%).
- Seventeen percent of the remaining households used other languages.

The most preferred language for medium of instruction was Urdu.

- Each household surveyed was also asked their preferred medium of instruction for their children in schools.
- Fifty-four percent of all the households surveyed preferred Urdu as the medium of instruction in schools.
- Home language was preferred by $11 \%$ of all households surveyed and $35 \%$
 preferred English.

[^1]The official medium of instruction of the schools attended by surveyed children was English or Urdu.

- Each child was also asked the medium of instruction in their respective schools.
- Eighty-four percent of the children in private schools reported English as their medium of instruction and 16\% had Urdu as their official medium.
- Thirty-two percent of the children in public schools reported having English as their medium of instruction, while $68 \%$ schools had Urdu as their medium of instruction.
- The medium of instruction for each school visited was also asked during the survey.
- Amongst the surveyed government schools, $31 \%$ of them
 were English medium, $65 \%$ of them were Urdu medium, and $4 \%$ were other mediums.
- Eighty-nine percent of the private schools surveyed had English medium of instruction, 9\% were Urdu medium

## Fourteen percent children were absent from the surveyed government schools.

Student attendance is recorded by taking a head count of all students present in schools on the day of visit.

- Overall student attendance in government schools stood at 86\%.
- The overall attendance in private schools is $82 \%$ as per the headcount.

| Attendance (\%) on the day of visit |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Government schools |  |  |  |  | Private schools |  |  |  |  |
|  | Primary | Elementary | High | Others | Overall | Primary | Elementary | High | Others | Overall |
| Children attendance | 85.6 | 85.2 | 86.7 | 88.6 | 86.3 | 83.1 | 88.4 | 76.0 | 71.0 | 82.0 |
| Teacher attendance | 87.4 | 88.7 | 88.9 | 73.2 | 86.3 | 85.7 | 86.2 | 89.0 | 96.6 | 87.5 |

Fourteen percent teachers in surveyed government schools and $12 \%$ in surveyed private schools were absent.

Teacher attendance is recorded by referring to the appointed positions in each school and the total number of teachers actually present on the day of survey.

- Overall teacher attendance in government schools stood at 86\%.
- Overall teacher attendance in private schools stood at 88\%.

## Sixty-seven percent of government schools surveyed had Class 2 students sitting together with other classes.

- The surveyors were asked to observe if Class 2 and Class 8 were sitting together with any other classes. This is referred to as multi-grade teaching, where one teacher has to teach more than one grade within the allotted time.
- It was found that $67 \%$ of the surveyed government schools and $17 \%$ of the surveyed private schools had Class 2 sitting with other classes.
- Similarly, $30 \%$ of surveyed government schools and $9 \%$ of surveyed private schools had Class 8 sitting with other classes.

## Gilgit-Baltistan (Rural)

More qualified teachers in government schools.

- Forty-five percent of the teachers in government schools had graduate degrees, while private schools had $38 \%$ teachers who did.
- Fifty-eight percent of the teachers had done Bachelors in Education in government schools, while $48 \%$ of the teachers in private schools had the same degree.

| Teacher qualification - general (\% of teachers) |  |  | Teacher qualification - professional (\% of teachers) |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Government schools | Private schools |  | Government schools | Private schools |  |
| Matriculation | 10.9 | 10.9 | PTC | 10.4 | 12. |  |
| FA | 21.3 | 25.3 | CT | 21.1 | 29.6 |  |
| BA | 44.7 | 37.7 |  | B-Ed | 58.3 | 47.5 |
| MA or above | 22.4 | 25.3 |  | M-Ed or above | 9.1 | 6.5 |
| Others | 0.7 | 0.9 |  | Others | 1.0 | 3.7 |

Larger proportions of surveyed private schools had computer labs and library books in their premises as compared to government schools.

- Twenty-five percent of the surveyed government elementary schools had library books available for students to use in the school premises, while $47 \%$ of the private elementary schools had the same facility.
- Nine percent of government elementary schools had computer labs as opposed to $12 \%$ private elementary schools.

| School facilities (\% schools) |  |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Government schools | Private schools |  |  |  |  |  |  |
|  | Primary | Elementary | High | Others | Primary | Elementary | High | Others |
| Library | 8.2 | 25.4 | 71.1 | 61.9 | 30.7 | 47.1 | 60.6 | 100.0 |
| Computer lab | 0.0 | 8.6 | 37.7 | 42.8 | 12.0 | 12.0 | 39.4 | 50.0 |

Sixty-seven percent of the surveyed government primary schools were without toilets and 63\% were without drinking water.

- Of the total government primary schools surveyed, $37 \%$ had useable water facility and only $33 \%$ had a functional toilet.
- In ASER 2011, it was found that $48 \%$ of the government primary schools surveyed had useable water while $33 \%$ had a functional toilet.
- The percentage of private primary schools found with useable water facility was $56 \%$ and $62 \%$ were found with a functional toilet.

| School facilities (\% schools) |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

|  | Primary | Elementary | High | Others | Primary | Elementary | High | Others |  |
| Useable water | 36.6 | 44.8 | 65.3 | 71.4 | 55.7 | 75.0 | 81.8 | 100.0 |  |
| Useable toilet | 32.8 | 55.1 | 58.4 | 57.1 | 62.3 | 62.7 | 90.9 | 100.0 |  |

## Gilgit-Baltistan (Rural)

Larger proportion of private primary schools had playgrounds and boundary walls as compared to government primary schools.

- Among the government primary schools surveyed only $21 \%$ had a playground within the school premises compared to $39 \%$ of private primary schools that had a playground.
- Boundary walls were found in $42 \%$ of the surveyed government and $66 \%$ of the private primary schools.
- In ASER 2011, 43\% of the surveyed government and private primary schools were found with a boundary wall.

| School facilities (\% schools) |  |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Government schools | Private schools |  |  |  |  |  |  |
|  | Primary | Elementary | High | Others | Primary | Elementary | High | Others |
| Playground | 20.9 | 59.3 | 69.2 | 85.7 | 38.5 | 43.1 | 69.7 | 66.7 |
| Boundary wall | 42.1 | 51.6 | 71.7 | 90.4 | 66.0 | 54.9 | 69.7 | 100.0 |

Eleven rooms on average were being used for classroom activities in surveyed government and private high schools.

- Government primary schools had 3 rooms on average that were used for classes, while private primary schools had 4.
- 7 rooms on average were being used in government elementary schools as compared to 6 in private elementary schools.
- In case of high schools, both government and private schools had 11 rooms on average for classroom activities.

| School facilities - Average number of rooms used for classes |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Covernment schools | Private schools |  |  |  |  |  |  |
| Rooms used for classes (avg.) | 2.8 | Elementary | High | Others | Primary | Elementary | High | Others |

Thirty-three percent of the government primary schools had received grants in the previous year.

- In 2011, among the government schools surveyed, 22 (33\%) primary schools, 23 (38\%) elementary and 18 (34\%) high schools had received grants.
- The proportion of schools receiving grants in 2012 (10\%) was much less than 2011 (27\%).

| School Grants |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
